PROFESSIONAL EXPERIENCE

Freelance Web Developer | Remote

2024 - Present

- Built and deployed 3+ full-stack client websites using Next.js, React.js, and Tailwind CSS.
- Achieved 90+ Lighthouse performance scores and reduced load times to <2 seconds through SSR, image optimization, and caching.
- Designed reusable component libraries, cutting development time by ~25% on new features.
- Integrated APIs (Google Generative AI, REST), improving client support efficiency and reducing response times by 70%.
- Configured authentication (JWT, OAuth2) and secure environment variables, ensuring scalable and secure deployments on Vercel.

KEY PROJECTS

Legal Aid Assistant (AI Powered) | Next.js, React.js, MongoDB, Node.js, Tailwind CSS

Live: <https://legal-aid-assistant-by-ahsan-and-shafiullah-bn7c.vercel.app/>

- Built conversational legal chatbot using Google Generative AI, reducing FAQ resolution time by 70%.
- Implemented SSR for SEO-sensitive pages and secure guarded routes for authentication.

Mehmood Builders & Developers Website | Next.js, Tailwind CSS, Vercel

Live: <https://mehmood-co-builders-and-developers.vercel.app/>

- Increased client inquiries by 30% through optimized service pages, metadata, and responsive layouts.

Muhib-e-Ali Darya-Dill - Welfare Organization Website | Next.js, Tailwind CSS

Live: <https://muhib-e-ali-daryadil.vercel.app/>

- Improved organic traffic and search visibility via static site generation (SSG) and SEO-friendly architecture.
